

I am writing regarding to the LPFM forcing FM stations such as K-Love off the air. First of all the impact of K-Love has been overwhelming on our country. So many people have been effected by this wonderful tool of God. K-Love's mission is to evangelize our country and bring the true knowledge of Christ to the people of the US. Not only have they done just that, but they have encouraged every believer along the way. So many people's lives have been changed and even saved by this wonderful ministry. People who were depressed, suicidal, angry, confused, etc etc...have been given new hope and new perspectives on life, through the encouraging fact that Jesus is their saviour. If this station is taken off the air then it will not be able to continue to grow to the rest of the nation. Our country needs this positive influence. They need to see the saving power of God and the true love of Jesus. Please reconsider what you are doing, or find another way. This station means too much to too many people to be torn from our lives, not to mention all the lives it could still effect. Thank you so much for considering this. God Bless ~ Ashley Brooke
